ABOUT

My interest in photography extends way beyond just delivering images to clients. I strive to understand their business, recognize their marketing challenges, and find creative solutions to solve them. The results are crafted images that push the boundaries of photography in both a technical and artistic manner, matching my clients vision, exceeding their expectations, and strengthening their market position, every time.

How I can help you is influenced, and enhanced, by my deep experience and interests in photography, printing, publishing, graphics, information technology, digital media, architecture, interior design, building materials, manufacturing, construction, and building renovations. Clients can depend on me to provide exceptional images that attract more business.

During every assignment expect me to be creative, positive, professional, and offer only exceptional service. Attention to detail and ensuring clients are satisfied with results is a hallmark of my business.

An Accredited Architectural Photographer with the Professional Photographers of Canada, I've been creating commercial grade images for over 30 years and have been published in hundreds of magazines, websites, and other printed material.

I hope you enjoy the images in this catalog as much as I've enjoyed crafting them. More examples of my work are available through the links on the last page.

REVIEWS

"In my 10 years as a Vancouver Realtor I have had the pleasure of working with many professional photographers. Carsten without question is by far the most talented, dedicated and passionate photographer we have worked with in our time. Carsten's high quality images of our listings have helped our business grow more than 50% year over year. Incredible attention to detail, excellent communication skills, prompt service and willingness to go above are what separates Carsten from others and makes him an industry leader."

"Carsten is a shining example of what every professional looks for when they hire a photographer. I have always been blown away with the level of service and quality of work that Carsten produces."

"Excellent service and great communication. I recently took some of my artwork to be scanned and I was very impressed at the quality and the level of professionalism. I needed it done quick and he exceeded my expectations. Carsten is a super nice guy and answered all my questions and was quick to respond. He definitely went above and beyond and I would recommend him to absolutely anyone looking for his services."

"You can tell how passionate someone is about their work by how detail oriented they are (e.g. moving a chair over 1 cm so the legs are all evenly spaced, adjusting a vase of flowers so they are centred above the middle pendant, carrying a level to check the alignment of hung photos, etc.). It's this level of detail and care in composition that sets Carsten apart from other photographers. I enjoyed watching him work and explain what he was doing while creating photos which made my house look surreal. He is really good at what he does."

"I own an Interior Design firm and we work with Carsten Arnold Photography to capture our completed projects. Carsten's work is beautiful and exactly what we are looking for! Carsten is professional and we trust him to meet and work with our clients on site. He is very accommodating with our ever-changing schedule and always quick to respond. We highly recommend working with Carsten Arnold Photography!"

What the reviews on Google, Houzz, & LinkedIn say about Carsten Arnold Photography

**Exceptional • Experienced • Efficient • Seasoned • Uncompromising • Passionate • Prompt
Meticulous • Proficient • Responsive • Impressive • Great Communication • Excellent Service
Accommodating • Professional • Creative • Detailed • Personable • Highly Recommend!**

ARCHITECTURE

Photographs are the handshake, the first impression, and the ambassador of the space online and in printed material. Your architectural design projects deserve exceptional images when showcasing them to the world.

INTERIORS

An artistic blend of natural ambient light and supplemental lighting creates images that will stand out and attract more attention to your business. Take your marketing efforts to the next level with custom crafted images that you will be proud to display.

ACCOMMODATIONS

Over 6000 locations photographed including hotels, Airbnb, and VRBO listings of all kinds. Certified official photographer for Airbnb. Book more clients, faster, and at a higher rate with stunning images that elevate your marketing efforts and brand. Final images are crafted from a blend of natural ambient light and enhanced strobe lighting for that magazine quality look. Virtual tours and drone aerials are also available.

INDUSTRIAL

Light or heavy industry and manufacturing of any kind become fascinating subject matter. I capture how things are made and the equipment, process, and people that make it happen, effectively telling the unique story of your industry.

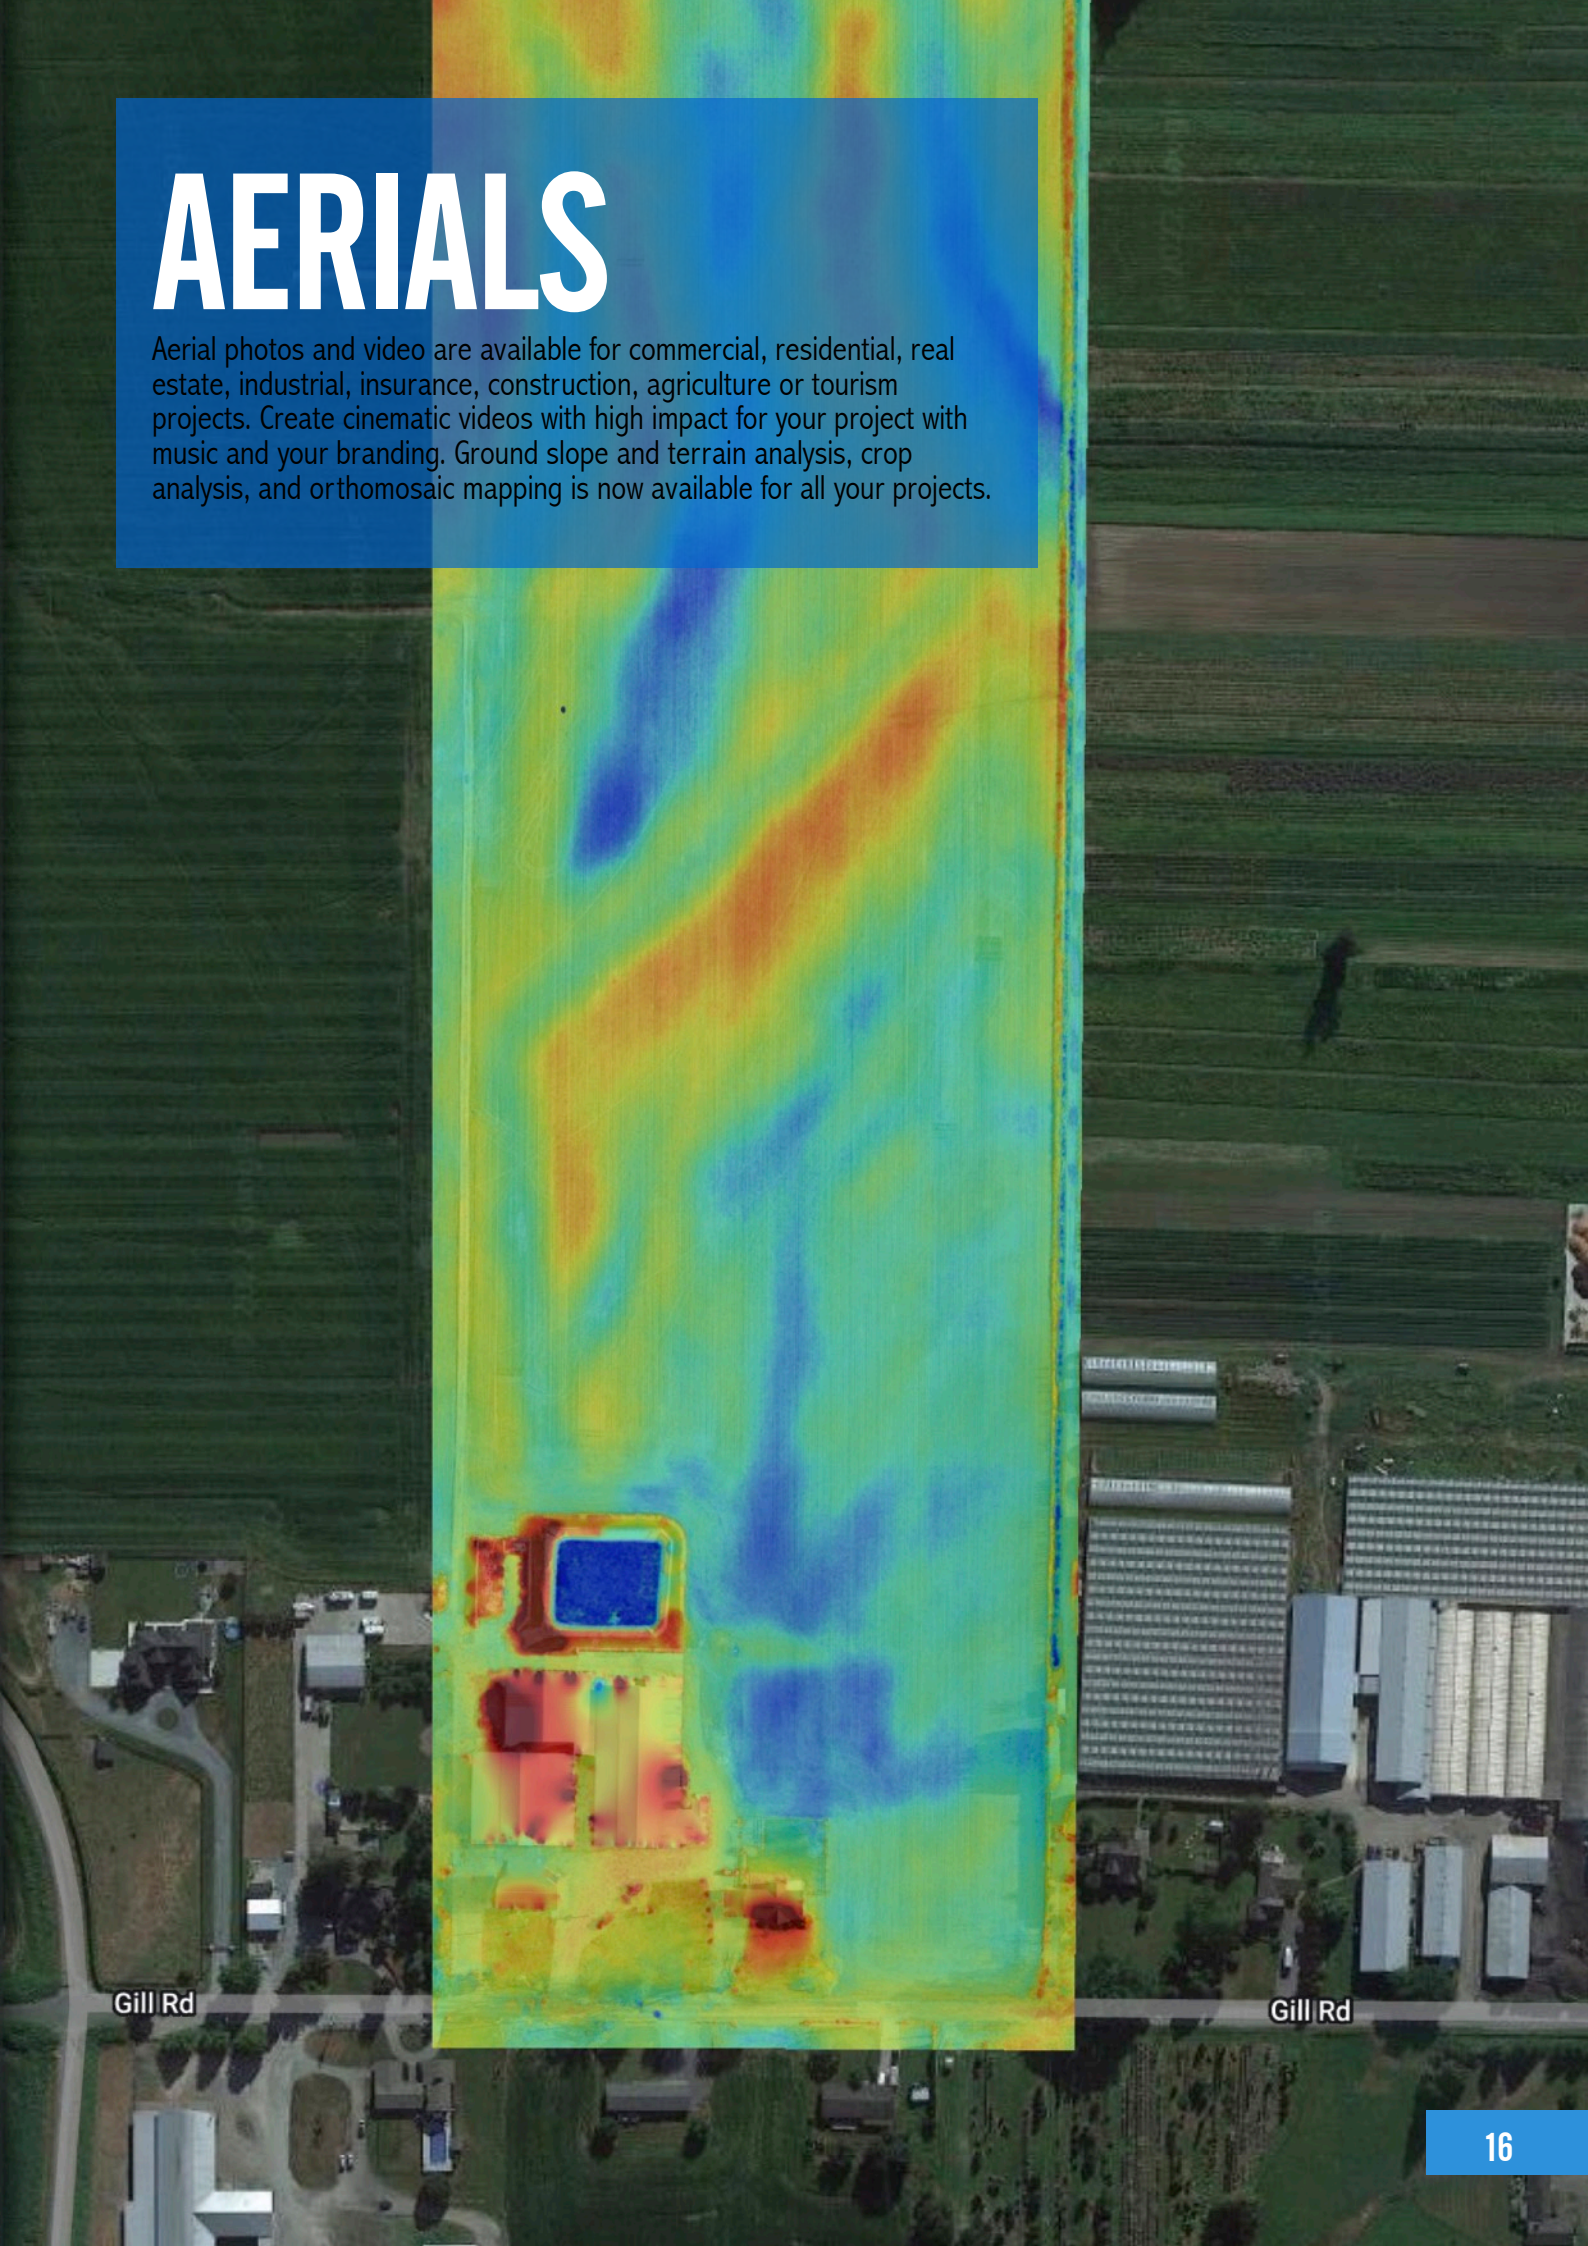

AERIALS

Aerial photos and video are available for commercial, residential, real estate, industrial, insurance, construction, agriculture or tourism projects. Create cinematic videos with high impact for your project with music and your branding. Ground slope and terrain analysis, crop analysis, and orthomosaic mapping is now available for all your projects.

PRODUCTS

Your unique and creative products need to be showcased to the world and your clients. I can bring the studio to you or photograph directly in my fully equipped studio using seamless backgrounds or green screen technology to drop in whichever background you envision.

HEADSHOTS

Invest in yourself and your online presence with unique and modern headshot styles. Let me bring the studio to you or at any location with a background that matches your style. You're guaranteed to see yourself in a way that you'll be proud to display.

PHOTO SCANNING

Carmel Studios is the in-house photo lab at Carsten Arnold Photography and is capable of scanning any sized original, restoring old photographs, colourizing black and white photos, and editing anything you can imagine. Over 30 years experience scanning and digitizing photos, negatives, transparencies, and original artwork.

ARTWORK SCANNING

Digitizing your original artwork gives you the option to reproduce it as a high resolution print, canvas, postcard, or on any other surface. Maximize your revenue by printing them at a later date.

Your original artwork is digitized in a studio with high resolution cameras and lenses for colour accuracy and sharpness. Specialized lighting equipment is used to remove all reflections from the medium and substrate used in your original. The resulting digital file is then colour matched to the original using a precision colour management process.

PHOTO RESTORATION

If your old photos need some tender loving care, give them the attention they deserve and bring them back to life. From a few scratches, folds, and dust spots, to complete replacement of missing pieces, fingerprints, extreme fading, and water stains, Return them back to life and preserve your memories for generations to come.

PHOTO EDITING

Any photo print, negative, slide, or digital file can be edited to meet your requirements. If you can imagine it, it can be done. For the photographer who wants to take their photos to the next level, I can take your images to the next level with our professional editing services.

WORKSHOPS

Learn basic to advanced photography, post processing skills, the Art of Seeing, and the business of photography from 40 year veteran photographer Carsten Arnold. Workshops included in 2023 are "A New Approach on Photography Basics", "Architectural & Interiors Photography", "Real Estate Photography", and "The Art of Seeing in Landscape Photography".

FINE ART

Landscapes, nature, abstracts, and digital artistry for your home and office decor. Available in all sizes on canvas, paper, metal, and wall murals. Commissioned custom crafted images are available to match your specific decor requirements.
